Save the most with your Prevea360 Medicare Advantage dental benefits

Did you know?

Tooth decay is the most common chronic disease among those 65 and older. To take advantage of your dental benefits and help protect your health, be sure to schedule your regular cleanings and exams.

Seeing a Delta Dental Medicare Advantage dental provider saves members the most money. In-network providers agree to accept lower fees. This makes benefits stretch beyond the annual maximum,* and members can avoid out-of-pocket costs.

Members save most money staying in-network

Prevea360 Medicare Advantage plans use the Delta Dental Medicare Advantage Network administered by industry-leading Delta Dental of Wisconsin. Members can find an in-network provider at Prevea360.com/extrabenefits. They can also call **866-548-0292** for a listing or to answer any questions. Treatments are guaranteed, claims are paid directly to the provider, and providers cannot charge beyond contracted fees.

Members can save more money since they'll still receive lower fees – even when their annual dental maximum has been reached. This applies for all covered preventive and comprehensive dental services, which could add up to hundreds of dollars in extra savings.
