Service Area

The service area for Prevea360 Medicare Advantage is Brown, Chippewa, Door, Eau Claire, Kewaunee, Oconto and Sheboygan counties. You must live in one of these counties to join a Prevea360 Medicare Advantage plan.

Member Checklist

We encourage you to complete this checklist to take advantage of the benefits and services available to you as a Prevea360 Medicare Advantage member.

☐ **Schedule your \$0 Annual Wellness Visit and \$0 Annual Physical Exam**

You'll want to make an appointment to see your doctor so they can learn more about you and how to best care for you.

☐ **Transfer Your Medical Records (For members new to SSM Clinics)**

Once you've scheduled an appointment with your new doctor, you should transfer your medical records from your previous clinic to your new clinic. Contact your previous clinic to complete an authorization to release protected health information so your new doctor knows about your previous health conditions and medical treatments to better meet your medical needs.

☐ **Complete Your Health Assessment Survey**

Complete the short health assessment survey enclosed in this kit. This survey helps us provide you more personalized health care.

☐ **Review Your Benefits**

Make sure you understand your health plan benefits, including limitations and exclusions. Find information in Chapter 4 of your Evidence of Coverage, which can be found in the Member Portal or at prevea360.com/Advantage-Member

☐ **Review Your Drugs***

Check to make sure your medications are on the formulary and see which preferred network location is near you. Go to prevea360.com/Advantage-Member to see our formulary and pharmacy network.

** This does not apply to member on the Harmony plan, which does not include drug coverage.*

☐ **Enroll in the Papa Program**

You will receive a phone call from Papa to be part of the Papa Pals Program, if interested. See page 9 for more information. You can also call Papa directly at **888-840-1609** to enroll.

☐ **Tell Us If You Have Other Health Insurance**

If you have more than one health insurance policy for your medical care, please contact the Customer Care Center to let us know. We will help you determine how your other health insurance works together with your Medicare Advantage plan.

☐ **Complete the Appointment of Representative Form**

This form ensures that your authorized representative can speak with Dean Health Plan on your behalf.

☐ **Create a Member Portal Account**

Your member portal provides secure access to information about your health insurance benefits, access to make premium payments, view claims information and more.

☐ **Create a MyChart Account**

MyChart gives you secure access to your health information. Use this portal to make appointments, message your provider, view lab results and more.

Go to **SilverandFit.com** to register for the program. It's quick and easy!

Living Healthy Rewards

You can earn up to \$150 in gift cards as a reward for completing healthy activities.

Here's how it works:

- Choose the healthy activities you want to complete.
- Each completed activity is worth reward points (example: 500 points = \$50)
- Earn up to 1,500 points for a maximum of \$150 per calendar year (before December 31, 2022)
- Rewards come in the form of gift card(s) of your choice to many national retailers, restaurants and other popular merchants.
- You must enter and redeem all points by December 31, 2022 to be eligible for rewards.

Log into the **Member Portal** to access Living Healthy Rewards. See page 6 for more directions on the member portal.

Manage Your Emotional Wellbeing

\$0 Mental Health Services

We cover mental health services provided by a state-licensed psychiatrist or doctor, clinical psychologist, clinical social worker, clinical nurse specialist, nurse practitioner, physician assistant or other Medicare-qualified mental health care professional as allowed under applicable state laws.

In-Home Support

We partnered with Papa, a company that connects you with screened and trained Papa Pals. Pals provide assistance with organization, light housework, technology and transportation.

This includes:

- **Household Tasks:** Pals help around the house with light cleaning, organization, laundry, cooking/meal prep, and taking care of pets.
- **Technology Help:** Pals teach you how to use a computer, smart phone, and tablet. This includes assistance with using social media, accessing a telehealth provider, starting a video chat with loved ones and accessing health plan resources online.
- **Transportation:** Pals assist you with transportation to doctor appointments, grocery/pharmacy shopping and other errands. Pals will pick you up at home, take you to the store/appointment, bring you back home, and help you carry bags into the home.

We cover 10 hours per month of Papa services. Pals can support you either in your home or virtually. Enroll with Papa by calling **888-492-4423**.

Getting the Right Care at the Right Place at the Right Time

The Importance of Primary Care

We ask our members, at enrollment, to select a primary care provider (PCP) within the Prevea360 Medicare Advantage network when you enroll. This is because our coverage options emphasize a proactive, preventive approach to care – one where a PCP oversees all aspects of your health care needs and keeps you well through regular visits. **Your PCP should serve as your first point of contact when medical care is needed**, especially for treatment of a chronic condition or for preventive care.

Urgent Care**

If you need a same-day appointment, try calling your primary care clinic first, as appointments are often available the same day for immediate treatment. Your clinic may direct you to go to urgent care if you need attention sooner than a clinic visit. Common reasons to visit urgent care include minor burns, sprains or strains, minor lacerations or rashes, and migraines. Urgent care sites are generally open evenings and weekends.

Emergency Care**

Severe illnesses, injuries and symptoms might mean you need emergency care. Common reasons to seek emergency care include heart attack symptoms (chest pain, shortness of

breath, nausea/vomiting), stroke symptoms (slurred speech, sudden weakness and vision loss, and dizziness), and head trauma or sudden confusion. **Call 911 if you think your health problem is life-threatening or could worsen on the way to the hospital.**

Specialty Care

In addition to primary care, the Prevea360 network includes a variety of medical specialties. Your PCP can help you select the specialist who is right for you. Visit prevea360.com/doctors for our online provider directory, which contains a comprehensive list of Prevea360's specialty providers, behavioral health services and hospitals. Turn to page 26 for more information about specialty care and when a prior authorization might be needed for these types of services.

Virtual Visit

Go to prevea360.com/virtualvisit to get a diagnosis, a treatment plan and even a prescription, if needed! Virtual Visits are available to members through age 75. To ensure members receive the highest quality of care, those age 81 and above should be seen at a clinic or doctor's office.

Need to know where to go for care?

Call **Prevea Care After Hours*** at **888-277-3832**. Experienced registered nurses are here to help 24/7/365.

**Due to licensing regulations, Prevea Care After Hours triage services are only available to Wisconsin residents.*

***Both urgent and emergency care are covered under your plan if you are not able to return to the Prevea360 Health Plan network for immediate treatment. If you require urgent or emergency care outside the network and are unable to get to a plan provider, please go to the nearest urgent care center or emergency room for treatment.*

Tips for a Better Appointment

Creating a strong, trusting relationship with a primary care provider (PCP) is at the heart of our preventive care philosophy at Prevea360 Health Plan.

Schedule Your Annual Wellness Visit and Annual Physical Today

Your annual wellness visit and annual physical are at the core of your preventive care plan. Preventive screenings can catch diseases, such as cancer, early when they are most treatable. By regularly scheduling your annual wellness visit and annual physical, your PCP will be more familiar with your health history and can make better recommendations about your care.

Plan Ahead

Bring a list of your symptoms, including when they started, how often they occur and what eases them before coming to a diagnostic appointment. List any other topics you also want to discuss with your PCP. Talk about the most important concerns first.

Talk About Preventive Care

During a routine or annual checkup, make sure to talk to your PCP about what preventive screenings may be right for you and when you should have them. See page 22 for preventive care details.

Bring Your Medications

Bring in bottles of your current prescriptions and the over-the-counter medications and supplements you take. (Put them in a bag so you can easily carry everything.) Also, be sure to write down the contact information for any other providers, a list of your allergies and any pertinent medical information.

Ask Questions

Don't hesitate to ask a question of your PCP if you do not understand something.

Be Open & Honest

The more your PCP knows about your lifestyle, the better he or she is able to treat you. Be prepared to discuss details like where you live, family medical history, your diet and sleeping habits.

Take Notes

Write down information or ask your PCP to make notes for you during your appointment. You might consider bringing a friend or family member to take notes and help you remember important information.

Contact Your PCP

If you have more questions or have problems with medications, call your PCP or send a message through MyChart (or another secure online health messaging system).

It is important to notify Prevea360 of your out-of-network urgent or emergency visit by calling the Customer Care Center at 877-232-7566 (TTY: 711). If you are enrolled in an HMO plan, a plan provider should deliver all follow-up care. Out-of-network services require approval by Prevea360 Health Plan unless you are enrolled in an HMO-POS plan.

Drug Coverage Questions and Answers

Questions on prescription drug coverage?

Reach out to our Customer Care Center at **877-232-7566 (TTY: 711)**, 8 am – 8 pm, weekdays (year-round) and weekends (Oct. 1 – Mar. 31).

Medicare drug coverage can be hard to understand. Here are answers to some of our most frequently asked questions:

Q

Are my drugs covered by the plan?

A

Our plan uses a drug formulary to determine how each drug is covered and any requirements for coverage. Visit prevea360.com/Advantage-Member to view our comprehensive drug formulary. The formulary allows you to search by drug name, type or tier. See your plans Evidence of Coverage to calculate how much you can expect to pay for drugs in each tier.

Q

What is the difference between Part D and Part B drugs?

A

It is important to understand the difference in coverage as Part D drugs are covered under the drug benefit while Part B drugs are considered a medical benefit:

- Part D drugs are the more common drugs you get at the pharmacy counter and can be self-administered. See chapters 5 and 6 of your Evidence of Coverage document to learn more about Part D drugs.
- Part B Drugs are typically drugs that are not self administered which can be given in a hospital or clinic OR they can be oral drugs or supplies that be for chronic conditions. Examples of these self administered drugs include injectable anti-cancer, intravenous Immune globulin drugs, or home dialysis drugs. Examples of Oral drugs can be your transplant drugs, asthma nebulization or diabetic testing supplies.

Q

Can using mail order really provide savings?

A

The mail order program can provide savings through the Initial Coverage Stage, as we offer discounted copays on a 90-day supply for tiers 1, 2 and 3. Using mail order is also convenient! You can avoid taking time to drive to a pharmacy by having your drugs delivered to your home. You can get a 90 day supply of many drugs at most pharmacies at the same discounted price as mail order drugs.

Q

Why does my cost sharing for a drug change through the year?

A

The Medicare Part D program has four defined segments of benefit offerings known as the Deductible Stage, Initial Coverage Stage, Coverage Gap and Catastrophic Stage. Each benefit segment may have different member cost sharing amounts. The coverage and description of these benefit segments can be found in Chapter 6 of your Evidence of Coverage document.

Understanding Your Prescription Drug Coverage*

How to use your pharmacy benefit

Need to find a pharmacy near you?

Visit prevea360.com/Advantage-Member to find preferred pharmacies and standard retail pharmacies near you.

Members save money by filling prescriptions in our preferred retail pharmacy network and through our mail order pharmacy.

- All Walgreens and Walmart pharmacies
- Costco** retail and mail order pharmacies

Members have access to standard retail pharmacy network that includes:

- Most national pharmacy chains, including CVS
- Many retail and grocery store pharmacies
- Many independent, local community pharmacies

The formulary, pharmacy network, and/or provider network may change at any time. You will receive notice when necessary.

Insulin Savings

You only pay a \$30 copay per prescription at preferred pharmacies and \$35 at standard retail pharmacies for insulin included on our formulary until you reach the catastrophic coverage stage. These savings apply through the deductible and copay stages and the donut hole.

Drug Formulary

Your prescription coverage is based on a drug formulary, or list of drugs, used by Prevea360 to help you differentiate what is and isn't covered. The Prevea360 formulary breaks the drug list into tiers, indicating different levels of cost sharing. As with most prescription drug coverage, there are limitations to coverage that help keep plan costs down. Make sure you are familiar with both your plan's specific coverage details and our general limitations and procedures as explained on the following page.

Save money by filling your prescriptions at Preferred Pharmacy locations

* No prescription coverage for (HMO-POS MA-only.)

**You do not need to be a Costco member to use the Costco Pharmacy.

Understanding Your Prescription Drug Coverage*

Formulary Management Procedures

The Prevea360 drug formulary is reviewed every month and updated on a regular basis. For example, we update the drug formulary when a new generic drug is approved. Visit prevea360.com/Advantage-Member and click on **2022 Drug list/formulary** for the most up-to-date drug formulary details.

Restrictions and limitations apply to the drug formulary, when necessary:

- **Prior Authorization:** Prevea360 requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from Prevea360 before you fill your prescriptions. If you don't get approval, the drug will not be covered. The drug formulary lists drugs that need prior authorization. You may also call the Customer Care Center for questions or information about your prescription drug benefits.
- **Quantity Limits:** For certain drugs, Prevea360 limits the amount of the drug that you can have each time you fill your prescription. The amount or supply of the drug product dispensed can be limited either per prescription or per a specific amount of time. For example, we may limit a drug to 60 tablets over a 30 day period.
- **Step Therapy:** In some cases, Prevea360 requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Prevea360 may not cover Drug B unless you try Drug A first. If Drug A does not work for you, then Drug B will be covered.
- **90 Day Supply of Drugs:** You may be able to receive a 90 day supply of most drugs on our drug formulary. These drugs are available with reduced cost sharing at most pharmacies and through our convenient mail order service. Drugs not available through mail order are noted with "NM" in the notes column of the drug formulary.
- **Limited Distribution:** The Food and Drug Administration restricts certain drugs to certain pharmacies. These drugs can only be obtained at specialty-designated pharmacies able to appropriately handle the drugs.

Medicare Advantage Preventive Care

By focusing on preventive care and wellness, we can work together to help you stay well and avoid illness.

Welcome to Medicare Office Visit

As soon as you enroll in Medicare Part B, you can schedule your welcome to Medicare visit. This visit is covered at no cost to you.

During this visit, your primary care physician (PCP) will record your medical history and check your vision, blood pressure, and weight and height to measure your body mass index (BMI).

This visit is also a great way to get up-to-date on important screenings and shots and to talk with your doctor about your family's medical history and ways to manage your health.

Annual Wellness Visit and Annual Physical

At this visit, the following preventive services, and more, are covered at no (\$0) out-of-pocket costs to you when received by an in-network provider:

- Breast cancer mammography screening
- Colorectal cancer screening
- Prostate cancer screening
- Diabetes screenings, monitoring supplies and self-management training
- Annual Physical

During this visit, your PCP will take a medical/family history and may perform a head-to-toe general health assessment with hands-on examination of all the body systems. An annual wellness exam does not necessarily involve a physical exam —your provider may or may not do both of these together.

Did You Know?

When you are new to Medicare Advantage you can schedule your Welcome to Medicare AND an Annual Wellness Visit.

- Your Welcome to Medicare visit is covered at no cost (\$0) to you during your first year of enrollment.
- The Annual Wellness and PCP visits are covered at no cost (\$0) to you.

Vaccinations*

It is important to keep vaccines current: you may not have been vaccinated as a child or your immunity may have faded. Most importantly, vaccines help keep you safe from possible life-threatening, vaccine-preventable, diseases.

Part B Vaccines

Medicare Part B covers these vaccines when received in your clinic:

- Annual flu shot
- Hepatitis B for intermediate to high risk
- Pneumococcal pneumonia
- Tetanus shot, but only due to an injury

Part D Vaccines

Medicare Part D covers these vaccines when received at an in-network pharmacy. You must receive the Part D vaccine in the pharmacy for it to be covered.

- Hepatitis B for low risk members
- Shingles
- Td (tetanus and diphtheria) booster
- Tdap (tetanus, diphtheria, and pertussis) booster

Other Preventive Services

All preventive services are listed in your Evidence of Coverage. See the Medical Benefits chart in Chapter 4, Section 2.1. You will see an apple listed next to the preventive services in the benefits chart.

Telehealth

Telehealth can be used to assess your risk for certain health conditions. It may also be used for your annual preventive visit or for other appointments if you do not need lab work or vaccines. Talk with your PCP and ask if a telehealth appointment is right for you.

** Your plan must include Part D for Part D vaccines to be covered.*

Medicare Advantage Diabetes Benefits

Prevea360 understands the special needs of individuals with diabetes. Our Medicare Advantage plans offer specific benefits geared toward those needs.

Struggling to manage your diabetes?

Diabetes Management

Do you have diabetes?

Make sure you are taking steps to stay healthy:

- Get an HbA1c test at least twice a year to check your average blood glucose level for the past two to three months.
- Get an LDL test when you are first diagnosed with diabetes to check your level of “bad” cholesterol, and repeat testing as recommended by your doctor.
- Get diabetic kidney disease testing.
- Get an eye exam which may include a dilated retinal exam.
- Get a regular foot exam.
- Eat a healthy diet and exercise regularly.
- Stay active. Register for Silver&Fit.

Understanding Prior Authorization

Making sure it's covered

As you navigate your health care, it's important to remember that certain medical services require prior authorization. If it is determined that your specific service need requires this, it must be submitted to Prevea360.

Prevea360 will not cover the cost of certain medical services if your prior authorization request is not received or approved.

Services that may require a prior authorization include, but are not limited to:

- Medically-related dental services
- Radiology services
- Durable medical equipment
- Mental health care
- Outpatient therapy
- Outpatient substance abuse
- Outpatient surgery
- Prosthetic devices
- Inpatient hospital care
- Skilled nursing facility
- Certain drugs
(see formulary for more details)
- Out-of-network services*

**Members on HMO-POS plans do not require a prior authorization before using out-of-network services. For HMO plans, if prior authorization is approved for out-of-network services, the member will pay the in-network cost-sharing amount.*

Your Rights and Responsibilities

You deserve the best service and health care possible. Rights and responsibilities help foster cooperation among members, practitioners and Prevea360.
