Prior Authorization Information

- The codes listed on this document may **not** be an all-inclusive list of codes that require prior authorization and/or have coverage limitations.
- Use the current applicable CPT/HCPCS code(s). The following codes included in this document are for informational purposes only and are subject to change without notice. Inclusion or exclusion of a code does not constitute or imply member coverage or provider reimbursement.

Codes that require prior authorization:

- Providers are responsible for submitting prior authorizations for Prevea360 Health Plan Commercial members with HMO or POS (In-Network Provider) plans.
- Prevea360 Health Plan Commercial members with PPO or POS (Out-of-Network Provider) plans need to verify that their provider has submitted a prior authorization before the service is performed in order to avoid incurring additional financial liability.
- If the column states: Use applicable CPT or HCPCS codes, there are no specific CPT codes we can list because a general or nonspecific code applies.

Codes that do not require prior authorization:

- A prior authorization is NOT required when provided by an in-network provider under the member's plan.
- A Prior Authorization will NOT be processed for these requests and will be cancelled as not required if submitted.
- An appropriate diagnosis code must appear on the claim; claims will deny in the absence of an appropriate diagnosis code.
- If a claim is submitted without a diagnosis code considered Medically Necessary, the claim will deny unless coverage is mandated by state/federal laws.
- If these services are provided by an out-of-network provider for an EPO or HMO, use of an out-of-network provider must be authorized prior to the service.
- Denied claims will be addressed through the provider appeal process.
- Prior authorization is not required. However, services with specific coverage criteria may be reviewed retrospectively to determine if criteria are being met. Retrospective denial may result if criteria are not met.
- If the column states: Use applicable CPT or HCPCS codes, there are no specific CPT codes we can list because a general or nonspecific code applies.

Codes that are not covered:

- A Prior Authorization will NOT be processed for these requests and will be cancelled as not covered if submitted.
- Prior authorization, if submitted, will be cancelled as not covered for the service.

- Denied claims will be addressed through the provider appeal process.
- Claims for this service are subject to retrospective review and denial of coverage, as investigative services are not eligible for reimbursement
