# Welcome to Prevea360 Health Plan

Prevea360 Health Plan is available to employees of the State of Wisconsin Group Health Insurance Program living in northeastern Wisconsin. It is underwritten by Dean Health Plan, so you know it's a plan Wisconsinites have come to know and trust. Our network offers expertise in nearly every specialty, with advanced specialties that are not found anywhere else in northeastern Wisconsin. Here are some additional reasons why so many choose Prevea360 Health Plan:

**Local Hospitals** What makes Prevea360 so special is its proprietary network of hospitals, physicians and ancillary providers that is based on Prevea Health's multi-specialty physician group and Hospital Sisters Health System (HSHS) partner hospitals. This collaboration between health care experts, hospital partners and insurance provider as an integrated health system leads to a better, more affordable experience for our members and patients — one that is centered around you.

# Using Your Plan

## Prior Authorization

As you navigate your health care, it's important to note that there are certain medical services or provider visits that will require prior authorization by Prevea360 Health Plan. These authorizations are required so our Medical Affairs team can make sure you are getting the appropriate care. A good rule to remember is that any time you seek services with an out-of-network provider, you will need to obtain a prior authorization.

## Utilization Management

When you need to discuss issues or have questions related to the requirement of an authorization for a particular service, Prevea360 Health Plan is here to help. Contact the Customer Care Center at **877-230-7555** (TTY: 711) and you will be connected to the Utilization Management department. This department ensures you receive the appropriate and necessary care for your condition.

Utilization Management staff members are available Monday through Friday, 8:00 am. to 4:30 pm. If you have an urgent need outside of those hours, please leave a message with the Customer Care Center and your call will be returned within one business day.

## New Medical Technology

Each year Prevea360 Health Plan evaluates new medical technology and reviews existing technology to determine if any changes or updates are needed to guidelines outlining appropriate use. During this process, we review requests for ongoing care or treatment recommendations for all Utilization Management decisions, including medical, behavioral health care, pharmaceuticals and medical devices.

Prevea360 Health Plan follows the review process set by the National Commission for Quality Assurance (NCQA). Based upon the results of the technology assessment, we will draft or revise medical policies if necessary.

## Limitations & Exclusions

For a list of services, treatments, equipment or supplies that are excluded (meaning no benefits are payable under the Plan Benefits); or have some limitations on the benefit provided, please refer to the State of Wisconsin Group Health Insurance Program's "Its Your Choice" materials, under Uniform Benefits, Exclusions and Limitations. Visit [etf.wi.gov](http://etf.wi.gov) to find these materials online.

# Understanding Your Benefits

The State of Wisconsin Group Health Insurance Program is a network-based plan. That means your primary care physician (PCP) from our network oversees all aspects of your health care needs and emphasizes preventive care to keep you as healthy as possible. Please refer to the State of Wisconsin Group Health Insurance program's "It's Your Choice" materials and your "Summary of Benefits and Coverage" from Prevea360 for details.

## Claims and Payments

**Filing Claims** Time is valuable to all of us; that's why Prevea360 Health Plan minimizes the amount of paperwork required for our members. In most cases, claims are submitted directly to Prevea360 Health Plan by providers or clinic staff. On occasion, if you're traveling out of the area or have a college-age dependent, for example, it may be necessary for you to submit a claim for reimbursement. When submitting the claim, please be sure to follow these guidelines:

1. Send an itemized bill from the provider of services. If services were received outside of the United States, you will need to submit the original bill along with an itemized bill that has been translated into English and indicate the appropriate currency exchange rate at the time the services were received.
2. Send the bill within 60 days of receiving the services to:  
Prevea360 Health Plan  
Attn: Claims Department  
P.O. Box 56099  
Madison, WI 53705

## Explanation of Benefits (EOB)

The EOB contains important information including the total amount charged, the amount paid by Prevea360 Health Plan, and the amount that is your (the member's) responsibility. You may access all of your EOBs online at any time through your online Member Profile (see page 5). Remember, an EOB is not a bill.

## Common Insurance Terms

Do you know the ABCs of health insurance? It's OK—the language of health insurance can be hard to understand at times. Yet every day, it's becoming more and more important for health care consumers to have a basic knowledge of the industry's terminology. We've spelled out these terms in plain English so you can make smart decisions that will benefit you and your family. Go to [prevea360.com/insuranceterms](https://prevea360.com/insuranceterms) to see a full list of terms explained.

# How insurance works

## Health insurance 101

We provide you with tools to learn where your health care dollars go, and we try to make it as easy as possible to understand your financial responsibilities.\*

Your policy may use a system of cost sharing that can include a copay, coinsurance, deductible or any combination of the three.

1

### DEDUCTIBLE

Each time you receive medical services, you'll pay the bill towards these services up to a certain amount. This amount is your deductible, which is what you must pay for covered health care services each year before we begin to pay.

2

### COINSURANCE<sup>†</sup>

Once you've paid the deductible amount, your insurance will then start splitting the cost of additional medical services with you. This is known as coinsurance, where you only pay a percentage or part of the total cost of services and we'll pay the rest.

**Deductible and Coinsurance Limit** - There's a dollar limit to the amount you'll pay towards your deductible and coinsurance.

3

### COPAYS

A copay is a fixed dollar amount, which you pay at the time you receive medical services (for things like an office visit) and prescriptions. All your copays add up toward your Maximum Out-of-Pocket total.

**Maximum Out-of-Pocket** - There's a dollar limit to all your cost sharing. You reach this amount by means of your deductible, plus your coinsurance, plus your copays. Once this limit is reached, you'll pay nothing on subsequent covered medical charges for the remainder of your policy year.

\* Not all of the cost-sharing terms listed here apply to all members. Refer to your Member Policy document to understand which apply to you.

† Coinsurance is your share of the costs of a covered health care service. It's calculated as a percent of the allowed amount for the service.
